It has come to notice that the WAN link at some of the offices remains down due to disconnected/switched off power supply to the router & modem installed at their end. The Controllers/IFA should ensure that the following steps must be taken for smooth working of WAN links at offices under their jurisdiction:

- b) The Nodal Officers will coordinate in getting necessary permission from Services authorities where sub-offices are located for installation of new DAD WAN connection such as permission laying of Fiber/copper, equipments and technical resources of ISP.
